

Standard Series, CCMO Series

In the case of discrete line and flexible connector wiring type

Contact pins	Unused soldering pad No.	
	1, 2, 3, 4, 5	44, 45, 46, 47
38pins	1, 2, 3, 4, 5	44, 45, 46, 47
39	1, 2, 3, 4	44, 45, 46, 47
40	1, 2, 3, 4	45, 46, 47
41	1, 2, 3	45, 46, 47
42	1, 2, 3	46, 47
43	1, 2	46, 47
44	1, 2	47
45	1	47
46	1	
47		

Standard Series, CCMO Series

In the case of the type with FRC connector

The cautions to get poisoned by FRC connection

• The relation of connection from the probe

The relation of connection from the probe to a connector connection pattern is the same as that of disk lied line type wiring. Please refer to the above.

• The product number of the following should be beware.

- CCNS-050-12-FRC、CCNS-100-12-FRC

FRC connector of 14 cores is equipped.

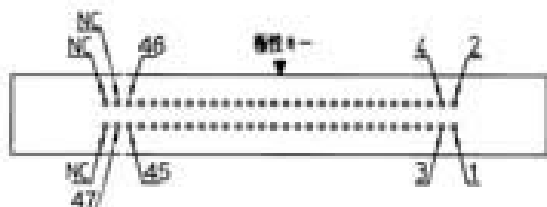

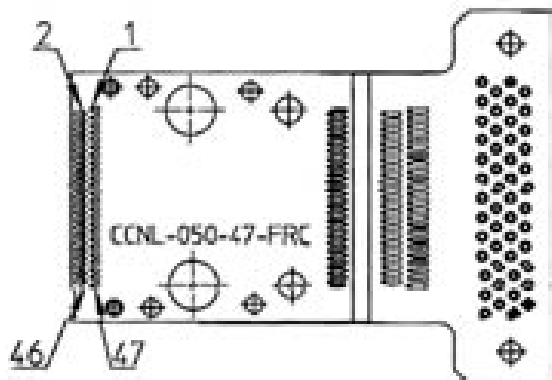

Therefore, No. 13 and 14 of connector connection pattern do not wire.

- CCNM-080-17-FRC

FRC connector of 20 cores is equipped.

Therefore, No.18, 19 and 20 of connector connection pattern do not wire.

CCNL-050-47FRC

he connector of the 1.27mm pitch and 50 cores is equipped.

Therefore, No.48, 49 and 50 of connector connection pattern do not wire. Please refer to the left figure.
