## Standard Series, CCMO Series

In the case of discrete line and flexible connector wiring type

Contact pins	Unused soldering pad No.	
13pins	1、2、3、4、5、6、7	21、22、23、24、25、26
14	1、2、3、4、5、6	21、22、23、24、25、26
15	1、2、3、4、5、6	22、23、24、25、26
16	1、2、3、4、5	22、23、24、25、26
17	1、2、3、4、5	23、24、25、26
18	1、2、3、4	23、24、25、26
19	1、2、3、4	24、25、26
20	1,2,3	24、25、26
21	1,2,3	25、26
22	1、2	25、26
23	1、2	26
24	1	26
25	1	
26		

## Standard Series, CCMO Series

In the case of the type with FRC connector

## The cautions to get poisoned by FRC connection

The relation of connection from the probe

The relation of connection from the probe to a connector connection pattern is the same as that of disk lied line type wiring. Please refer to the above.

- · The product number of the following should be beware.
  - CCNS-050-12-FRC、CCNS-100-12-FRC

FRC connector of 14 cores is equipped.

Therefore, No. 13 and 14 of connector connection pattern do not wire.

• CCNM-080-17-FRC

FRC connector of 20 cores is equipped.

Therefore, No.18, 19 and 20 of connector connection pattern do not wire.
