

Standard Series, CCMO Series

In the case of discrete line and flexible connector wiring type

Contact pins	Unused soldering pad No.	
27pins	1、 2、 3、 4	32、 33、 34、 35
28	1、 2、 3、 4	33、 34、 35
29	1、 2、 3	33、 34、 35
30	1、 2、 3	34、 35
31	1、 2	34、 35
32	1、 2	35
33	1	35
34	1	
35		

Standard Series, CCMO Series

In the case of the type with FRC connector

The cautions to get poisoned by FRC connection

• The relation of connection from the probe

The relation of connection from the probe to a connector connection pattern is the same as that of disk lied line type wiring. Please refer to the above.

• The product number of the following should be beware.

- CCNS-050-12-FRC、 CCNS-100-12-FRC

FRC connector of 14 cores is equipped.

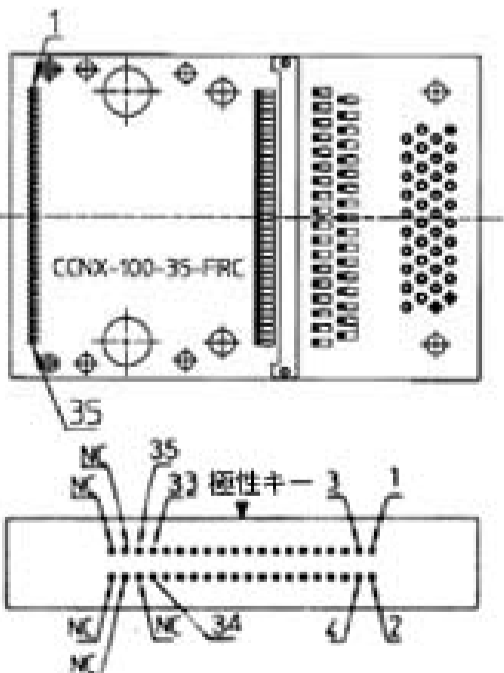

Therefore, No. 13 and 14 of connector connection pattern do not wire.

- CCNM-080-17-FRC

FRC connector of 20 cores is equipped.

Therefore, No.18, 19 and 20 of connector connection pattern do not wire.

CCNX-100-35FRC

The connector of the 1.27mm pitch and 40 cores is equipped.

Therefore, No.36, 37,38,39 and 40 of connector connection pattern do not wire. Please refer to the left figure.
