

Standard Series, CCMO Series

In the case of discrete line and flexible connector wiring type

Contact pins	Unused soldering pad No.											
3pins	1	2	3	4						8	9	10
4	1	2	3							8	9	10
5	1	2	3								9	10
6	1	2									9	10
7	1	2										10
8	1											10
9	1											
10												

Standard Series, CCMO Series

In the case of the type with FRC connector

The cautions to get poisoned by FRC connection

- **The relation of connection from the probe**

The relation of connection from the probe to a connector connection pattern is the same as that of disk lied line type wiring. Please refer to the above.

- **The product number of the following should be beware.**

- CCNS-050-12-FRC、CCNS-100-12-FRC

FRC connector of 14 cores is equipped.

Therefore, No. 13 and 14 of connector connection pattern do not wire.

- CCNM-080-17-FRC

FRC connector of 20 cores is equipped.

Therefore, No.18, 19 and 20 of connector connection pattern do not wire.
